From the Head of Organisation & Student Pathways

Dear Parents, Carers, Friends and Students of Marian College,

❖ *We encourage excellence and perseverance in learning,*

❖ *We strive for continuous improvement*

***Dear God, please give me strength.
Strength to raise my head, to get out
of bed, to rise to my feet and begin
this new day. I am so tired. Mentally
tired. Physically tired. It's like I can't
shake yesterday's ghost from my
shoulders. It's like I've forgotten
who I am, how far I've come.***

***Everywhere I turn, I'm reminded of
all the ways I've fallen short, all the
goals I didn't reach, all the lessons
I still haven't learned. Every time I
open my eyes, I'm reminded of the
people I've lost, of the words I spoke
in anger, of the promises I've broken.
And no matter what I try to do, it's
like I can't break free.***

***I'm so tired, Father. And I need Your
strength to fill me. Please give me
Your love—pour it into my spirit. Let
it warm me, let it course through my
veins, let it remind me that in You,
I can do all things. God, please give
me the strength to face today, to face
the obstacles, to face whatever life
might throw at me. I know that when
I trust in You and lean on You. You
will carry me forward. So this is me
acknowledging that I can't face this
alone—this is me, giving my heart
and lungs and legs to You.***

Guide me forward.

Amen.

Week 3, Term 2 ... Phew!

It is week three of term two and we are in full throttle! It is hard to keep up and maintain our usual steadfast approach. Returning to "normal" is taking more effort than we perhaps thought. The Year 9 Camp held at Cape Bridgewater was a wonderful experience for our students. They began with sandboarding at the Swan Lakes State Park. It was cold and windy, but many of the students had numerous turns at hurtling down the sand dunes on a sand board. There are no doubt photos in this newsletter which will show you some of our students enjoying this activity. I was lucky enough to be one of the teachers to accompany them to Cape Bridgewater and participate in the many and varied activities that were organized for them to enjoy. Canoeing, surfing and doing a small segment of the Great South West Walk starting from the Blowholes Lookout were some of the highlights. We had a hoe-down on the second night and most students enjoyed that as well. While it was wet and cold and we did get wet and cold often, it was a lovely experience.

NAPLAN testing began this week and so far has gone smoothly. This year is our first time with being fully online with the testing and it is a bit of a change for everyone. This is a great opportunity for your student to do their best and find out where they sit in the state and national average data sets.

Year 11 and some Year 12 students attended the Careers Expo on Friday 13th May at the Melbourne Showgrounds. This is an excellent opportunity for our students to have a look at the wide variety of options that are available to them both in the tertiary sector as well as

looking at possible employment opportunities in their future. This event has been organized by our Careers Counsellor Mrs Andrea Knights and will no doubt be an annual event on our school calendar.

On Tuesday 17th May Marian College is holding its 2023 Year 7 Information Evening. If you or someone you know is interested in attending this event, please encourage them to come along. We will begin in the Gym at about 6.30 pm and then we let you take it from there ... with lots of encouragement and guidance from us. There will be a barbeque happening all night, as well as light refreshments and coffee available. The school will be showcasing its best for our prospective Year 7 students. It should be a great night.

Along with all of this, we have had numerous sporting events occurring throughout the last few weeks, and more are coming up. Black Ranges, and the Greater Western Region sporting tournaments are back in full swing. We have been sending out football, athletics and cross country teams across the year levels and have found some success along the way. Our students are enthusiastic participants which is wonderful. However, some students are forgetting that school work is a priority and if they have an assessment task due when they are scheduled to attend a sporting event, then that task should be completed and handed

in on time. Regardless! It is just a reminder that attending a sporting event is not a valid excuse for late submission of work.

Next week we have numerous classes going out on excursions to various places in Melbourne and Ballarat. The Year 12 Biology Excursion to Ballarat Tech School is happening on Wednesday 18th May. The Product Design and Technology Year 11 and 12 students are going to Melbourne on Monday 16th May. There are other excursions coming up for other year levels. It seems we cannot have too many of them! If you are a parent who needs to consent to these excursions, please do so in a timely manner on PAM. An electronic permission letter is sent to you that requires a response. Thank you to all of you who are being vigilant in getting these consents in and allowing their child to attend some of the events that we are offering for students.

On Wednesday 25th May we have Parent-Teacher interviews. These will take place in the school Gymnasium. Interview slots begin at 1 pm and continue until 8.00 pm. Please watch out in the Newsletter for how to book an appointment with each of your child's teachers. This is a great opportunity for both parents and teachers to catch up with how their child is doing in specific subjects.

SPORTS REPORT

There's been a fair bit happening at Marian College over the past couple of weeks in terms of sports.

Friday saw a large number of students travel to Stawell to compete in the Black Ranges competition. There were a lot of great performances which saw Marian College students collecting a lot of ribbons. Brad Carter came 1st in 4 of his 5 events seeing him win the 16 year age champion for the meet. Jackson Greene broke the record for the 14 year high jump clearing 1.62 metres. There were a lot more great performances which will see a number of students make it through to GWR competition later in the year.

Monday saw students go to Murtoa to compete in Black Ranges Cross Country. It was a nice day which was unusual for the event as it is normally cold and wet. We saw a lot of success from students seeing a lot get through to GWR Cross Country. The highlight was Elise Monaghan winning the 18 years competition with Ivana Donnan coming in 3rd place. Bronson Potter also placed 3rd in the 13 year boys competition.

Well done to all students who represented Marian College at various competitions over the past few weeks!!

Michael Harricks, Head of Sport

Victorian Careers Show

On Friday a large group of Year 11 and 12 students went to the Melbourne Showgrounds for the 2022 Victorian Careers Show. Students were able to visit over 80 Exhibitor Stands and attend Seminars. The Exhibitor Stands included:

Resources for the VCE

Tertiary study, university, TAFE and training courses

Career advice

Study advice

Employment advice and opportunities

Apprenticeship and traineeship advice

International exchange and gap year programs

Although the bus travel to and from made it a long day, the consensus from the students was that the excursion was well worth it.

'The careers expo was a great opportunity to have a look at all the different pathways you can take after high school. I liked how I could walk around and see different career options and being able to talk to experts in the different fields was really helpful. The careers expo really gave me an eye opener of what I want to do after I graduate'. Dea.

'I thought the careers expo was very educational as you were able to talk to all different universities about your interests. They were able to give us some tips and even booklets on all the different courses that the university offered. I would highly recommend it as you are able to explore all the different courses and they could give you their advice and offer personal experience to allow us to better understand what studying at uni might be like.' Erica

'I decided to mosey on up to each stall that I had some interest in and take an information booklet and, if the eager person standing there for an extended period of time was lucky, I would engage in conversation. I think the most thorough discussion I had was with the event hire person about swivelling lights. I also went to a rather pleasant VCE English seminar and just so happened to insult the Unique Student Identifier man. Now I have much to ruminate over.' Gabe.

'It was a very good chance to compare and talk to universities. It also had many seminars with helpful tips on how to get through year 12.' Jayde

K E L L Y

NEWS

FROM YOUR HOUSE LEADER

Well , here we are, fourth week into Term 2. It has certainly been a busy start to the term with black Rangers Athletics in Stawell, school cross country, Black Rangers cross country in Dimboola and our Year 9s have gone on camp. Hopefully life will ease off a little bit.

Black Ranges Athletics

The following Kelly students made it through to the Black Ranges; Arlo Hastings, Bradley Carter, Charlie Dunn, Ellouise McAuliffe, Jackson Greene, Krys Syrota, Lachie Cranstoun, Miko Hermosilla, Sam Harrington, Skyla Ralph, Sophie Cooper and Ella Moloney. I'm yet to receive the results. From all accounts it was a great day.

We obviously have some good distance runners. The following Kelly students won the MC cross country for their age group:-

Under 14 Girls - Krys Syrota (good in water and on land)

Under 14 Boys - Sam Harrington (runs like his dad).

Under 15 Boys -Jack Kuchel (as good on land as he is in water)

Under 16 Boys - Brad Carter (Is there anything this boy can't do??)

Congratulations to the following students for making it through to the Black Ranges cross- country:

Angok Kur, Asher Dunks, Bradley Carter, Bridie Price, Cohen Davis-King, Ella McAuliffe, Elsa McConachy, Erica Evans, Euan Lennie, Fraser Dunn, Grier Lennie, Jack Kuchel, Jack Stevens, Jackson Greene, Kiara Davis, Krys Syrota, am Harrington and William Machin.

We had some good results. Young Krys Syrota came in the top 10.

This term we will be having Parent Teacher Interviews in the school Gym on Wednesday the 25th of May. They will start at 1.00 pm and go through to 8.00 pm. You can book an appointment via PAM.

In the not too near future, students will be looking at their subject choices for 2023. Our current Year 8 students will get an opportunity to choose electives that interest them. Year 9's will also choose electives or whether or not to start their VCE journey by starting Units 1&2 (Year 11). The Year 10 cohort can continue doing their elective quota or start Units a 3&4 (Year 12). Please have a discussion at home, with your TA teacher or teachers to help you work out your pathway.

As the weather starts to deteriorate can I please ask you to purchase a school coat to keep you warm. No other coat is acceptable.

Keep warm.

Donna Spalding Kelly House Leader

Parent Teacher Interviews

Pupil Free Day

Parent/Teacher/Student Interviews will be held on **Wednesday 25th May, 2022** This is an important opportunity to speak to teachers for direct feedback about your child's progress throughout this semester and discuss any issues that may have arisen. It is highly recommended that students attend. Details of the interviews follow:

- Interviews start at 1.00pm and the evening concludes at 8.00pm
- There will be a whole staff break at 5.30pm for 30 minutes.
- Interview times are a strict 8 minutes per subject.
 - If you have teachers who teach multiple classes with your child, **please book only one interview timeslot**. Similarly, if you have a need to discuss an issue in greater depth, please organize a separate meeting time.

Interviews can be booked through the **Parent Access Module (PAM)** from the College website. If you cannot remember your username and password, contact the College immediately. **Bookings through PAM are open.**

Follow these instructions to make a booking.

- From the College Website Homepage, click on the PAM icon.
- Log in to PAM using your current username and password.
- From your PAM homepage, Click on the Parent Teacher Interview Icon. This will open a page where you can make bookings for your child/children.
- Click on the child you wish to make a booking for, then select the subject. The times when that staff member is available will appear. Only available timeslots will appear.
- Click on a suitable time and select 'Book Interview'.
- Booked times will appear at the bottom of the page.
- Continue making bookings for subjects and teachers you wish to meet.
- You will be able to print off all bookings made using the print icon.

Bookings may be cancelled and changed at any time. Please make cancellations as soon as possible to free up timeslots for others.

If you require assistance please contact office staff who can make bookings on your behalf.

YEAR 9 CAMP

Year 9 camp started with a long bus trip to Cape Bridgewater. Our first stop was the sand dunes where we did sand boarding! The sand dunes were extremely steep and were really difficult to climb up, if only it was as easy to get up as it was to get down! There were many attempts that ended up with a mouth full of sand, but everyone managed to give it a good try and had fun. After the bus ride to the campsite we got settled in our cabins and then went on a beach walk, where a lot of us managed to get soaked by the waves.

The next day we got up bright and early, ate breakfast and headed to our first activity. My first activity was surfing. We started off by doing a warm up along the beach before learning how to stay safe in the water and how to surf correctly. The water was warmer than I thought it would be, but that might have been because I was one of the lucky ones who got a dry wetsuit. Many people managed to stand up on the surfboard which was a great achievement. After drying off as much as we could we got some hot chips/ hot chocolate to warm ourselves up. My group still had a good hour before our next activity of canoeing, so we all decided to change into some warmer clothes as we had been soaked from the rain that came in. We went to a scenic lake that had incredibly still water which was perfect for canoeing. We practiced our skills and had many races.

That night we went down to the hall to have dinner. After dinner we moved all the tables and chairs and got ready to do some line dancing. Most of us got partnered up and danced for roughly 2 hours. Throughout the 2 hours many of us were given lollies for doing such a great job. I think most of us enjoyed line dancing. It was a great experience and I'm glad I did it.

The last day we woke up and started packing up, ready to go home. We had breakfast, then in groups we headed up to the blowholes, which was the start of our 8km walk. We started off the trail by taking pictures of the breathtaking scenery before embarking on our walk. Unfortunately, after an hour's walk it started to rain. A lot of us got soaked but were nearly dry by the time we had finished walking. When we returned, we had lunch then packed all the bags into the bus and headed home.

Overall, this camp was memorable as it had some really exciting activities - it is really difficult for me to choose a favourite moment! We all had so much fun together and created new friendships and memories that will stay with us for a long time. On behalf of Year 9, I would like to thank the teachers and staff for making this camp possible. They have worked really hard to make this such a great experience for us. The weather wasn't ideal but we still managed to have a great time!

By Grier Lennie.

YEAR 9 CAMP

YEAR 9 CAMP

YEAR 9 CAMP

After 66 song changes we arrive at the sandboarding dunes, when we get there we are shown how to sit doubles on a narrowish board, the front person holds up the back person's feet, no hands on the ground and wait for the people at the bottom to move. Great fun going down, not so much going up apparently (step in other people's footprints), after everyone having one or two goes the sand got slippery and more falling happened than stopping slowly and calmly. After great fun and a few people flying we got back on the bus to head to camp.

On arrival at camp we are greeted by Bob and his daughter Kelly. We are given directions to our cabins and we settled in. The cabins are all named after sea animals; Whales, Sharks and Abalones. We are also told that we are the last ones to sleep in these cabins before they are renovated but that means you should still respect them. Dinner is at 6, sausages and hamburgers are served, after dinner we wander down to the beach, best decision ever! We had great fun splashing in the ankle depth until some people got soaked. Somehow the teachers got everybody back (mostly dry) and lights were out at 9:30. When we wake up, breakfast is at 8 and bacon and eggs are on the menu. Cereal is an option too, a massive amount of fruit juice is on 2 tables. Happy chatter breaks out as everyone sits down to eat breakfast. Green group has surfing first and we met Keith, Tara and Lachie. You think it's bad getting up early to surf, lucky us got the dry wetsuits, everyone else got our wet ones (cold!). After getting cold, we did some yoga to stretch our muscles and ran to the surfboards. When we got into the water we had great fun putting our instructions to use and practicing, I think everybody got to stand up and had fun. After that was a raft building activity and trip to the cafe. Hot chips and hot chocolate warmed us up, we had a barrel race instead of raft building (thanks Mrs MacPherson!). We first had to roll it with our hands, then feet and then the rain poured. After a soggy walk back to camp we attempted to dry our clothes but it didn't work. We did have beach games but it was wet and green got to hang around camp. Then Mrs McConachy ferried us to canoeing (as she'd done for everyone else, thanks!) Canoeing was amazing and we had a

great debate of what we saw, was it a duck? An otter? Or maybe a seal? Whatever the mystery creature was we had a great time canoeing. The next morning we went on an amazing walk and saw the invisible barrier between two seal colonies. The invisible line between Australian Fur seals and New Zealand Fur seals. Australian fur seals are actually more agile and playful we noticed, and New Zealand fur seals are chunkier and twirl in the water unlike Australian Fur seals which jump and speed around each other. Thank you to all the teachers who came on camp - Mrs McConachy, Mrs Edwards, Mr Armstrong, Mrs MacPherson, Mr Kelly, Mr Nicholson (Dave), Mrs Bulger and Mr Naus.

YEAR 12 STUDENTS

Apply for university now!

Australia National University

Applications close for the Australia National University direct entry program on 23 May. You could receive a guaranteed offer by September, www.anu.edu.au/study/apply

La Trobe University

Applications for the La Trobe University Aspire Early Admission Program are now open and will close in September, www.latrobe.edu.au/study/aspire

Charles Sturt University

Round 2 applications for the Charles Sturt Advantage Program will close Friday 24 June. You could secure a guaranteed offer by late July, <https://careernews.click/advantage>

University of New England

Applications are now open and close in September. Selection is based on a recommendation from your school, <https://careernews.click/uneeearlyentry>

Swinburne University

Applications open for the Early Entry Program this month and close in October, <https://careernews.click/swinburneearlyentry>

RMIT University

Applications open for the Early Offer program this month and close in September, <https://careernews.click/rmitearlyoffer>

Medicine and Dentistry

UCAT ANZ

Applications for the UCAT ANZ (University Clinical Aptitude Test) will close Tuesday 17 May. If you are planning to apply for medicine or dentistry for the 2023 intake, you may be required to sit this test. Visit www.ucat.edu.au

ALL STUDENTS

Career Expos

RMIT Future Careers Expo

The RMIT Future Careers Expo is a virtual event designed to help you take the next step in your education. Register now to attend live events, take part in panel discussions, access course information, explore study options and chat with current students and career advisors. Once you register, you will be able to access on-demand viewing for 30 days after the event. The Expo will run between 17 – 19 May, <https://futurecareers.rmit.edu.au/>

Year13 Careers Expo

Finding your dream job has never been easier. The Year13 Expo lets you find a career you're genuinely passionate about without even having to get out of bed. Over the course of the week, you'll hear from experts, chat with influencers and explore all of your post-school options at this digital careers expo. The Year 13 Expo has been carefully crafted to include a wide range of stories, experiences, career information and exhibitors who can help you follow your passion. There will be five stages packed with content where you can learn about the different aspects of the future:

- Main Stage – get inspired by stories of successful people who are killing it in their careers and understand the path they took to get to where they are today.
- Pathways Stage – find all your post-school options in one place across many different areas, including jobs, courses and travel experiences.
- Future of Work Stage – it's hard to know which careers are still going to be around in a decade or two. Suss out all the info we have about ensuring your passion is future-proof.
- Life Hacks Stage – when it comes to being a successful adult, there's a few tricks of the trade we have to share, from financial literacy to nailing a job interview and heaps more.
- Year13 Academy – learn all the skills you wish you were taught in school, and get rewarded for doing it! Suss out the cash rewards and prizes that are up for grabs.

Plus there is a \$10,000 competition running! The Expo will run between 16 – 22 May. For information and to register your place, go to <https://careernews.click/yr13expo>

Explore your university course options

Many universities offer the opportunity for prospective students to speak directly with course advisers via Zoom or a phone call. The following are examples of universities offering this service:

Australia National University (ANU)

Book a study consultation: book a phone call or video conference to discuss your study options with ANU course adviser Clara Hill, <https://careernews.click/clara>

University of Wollongong (UOW)

Chat with a current UOW student and ask any questions you have about life at Wollongong. Use the drop-down filters on this webpage and find the best student to help you - www.uow.edu.au/study/ask-a-student/

Charles Sturt University

Book a study consultation: book a 45-minute phone call or video conference to discuss your study options with a Charles Sturt University course adviser, <https://study.csu.edu.au/contact-us/consult>

Monash University

Book a phone call with a general course adviser or a faculty adviser (e.g., engineering, science, business, education, information technology), www.monash.edu/y12hub/book-a-call

RMIT University

Book a one-to-one virtual consultation with a course adviser and get your questions answered about studying at RMIT, <https://careernews.click/rmitchat>

Apprenticeship and Traineeships

Australian Apprenticeship Pathways

You will be able to undertake apprenticeship aptitude tests, find local apprenticeship and group training centres, and learn about different trade occupations, www.aapathways.com.au/

Careers in Business & Commerce

When people think of careers in business, they often think of occupations such as business management, accounting, finance, and marketing. The following are three business career areas you may not have considered:

Insurance

As one of the biggest, most diverse industries in the world, insurance has more roles than you'd imagine – including ones that are perfect for you. Love numbers? You're needed. Love people? Insurance has roles for you. Analytical? A big thinker? A problem solver? Whatever you are, insurance has a job with your name on it, <http://careersininsurance.com.au/>

Economics and Econometrics

Economists perform economic research and analysis, develop and apply theories about production and distribution of goods and services and people's spending and financial behaviour, and provide advice to governments and organisations on economic policy issues, <https://careerswithstem.com.au/read-it-here/>

Actuarial Science

Actuaries evaluate risk and opportunity – applying mathematical, statistical, economic and financial analyses to a wide range of business problems. Actuaries work in insurance, superannuation, wealth management, investments, health financing, banking, data analytics, energy resources and the environment etc., www.actuaries.asn.au

Interested in studying business?

Did you know that several universities offer a year of industry experience as part of their undergraduate business degrees? The following are three examples:

Victoria University

At least 40 weeks of paid industry experience through the Cooperative Education program (competitive entry), www.vu.edu.au

Swinburne University

A guaranteed year of paid industry experience through the Bachelor of Business (Professional) degree, www.swinburne.edu.au

RMIT University

A guaranteed year of industry experience through the Applied program for Marketing, Economics and Finance, Information Systems, International Business, and Logistics and Supply Chain Management, www.rmit.edu.au/study-with-us/business

Careers with the Australian Federal Police

A career with the AFP can lead to working with the community, across the country or around the globe.

Whether in a non-policing support role, investigating transnational crime, combatting terrorism and people smuggling, investigating crimes against the ACT community and patrolling its city and suburban streets, providing high visibility protection to commonwealth infrastructure sites and establishments, or heading overseas to liaison posts or capacity building missions, you'll be on the frontline, contributing to keeping the Australian community safe.

There are three main employment pathways:

- Entry Level Sworn Recruit
- Lateral Police Recruit
- Professional (Non-Policing) Role

Recruitment requirements

Visit the Application and Recruitment Process page for detailed requirement information, www.afp.gov.au/careers

Natural Health Courses

Have you considered natural health? The following two colleges are located in the Melbourne area:

Endeavour College of Natural Health

Courses: Acupuncture Therapies, Massage, Naturopathy, Nutritional and Dietetic Medicine, Chinese Medicine, and Complementary Medicine. For information on courses, events, information webinars and to read career profiles of graduates, visit www.endeavour.edu.au

Southern School of Natural Therapies

Courses: Health Science, Clinical Nutrition, Chinese Medicine, Western Herbal Medicine, and Naturopathy. The School is part of Torrens University and Think Education, www.ssnt.edu.au

Research TAFE and university courses

TERTIARY ADMISSION CENTRES

State-based Tertiary Admission Centres process course applications on behalf of universities, some TAFE institutes, and some private providers. You can research courses, prerequisites, selection criteria and ATAR profiles for the 2023 intake.

Courses for the 2023 intake will be updated mid-year but you can use the current information as a guide. Websites are listed below.

AUSTRALIA WIDE SEARCH

Course Seeker is a fantastic website that enables students to be able to explore courses for each state in the one website.

You can research courses, prerequisites, selection criteria and ATAR profiles for the 2023 intake.

www.courseseeker.edu.au/

TAFE

MySkills is the national directory of vocational education (VET) organisations and courses. You can search for courses or occupations and use a location search.

You can also browse courses and occupations by industries such as health & community services, manufacturing & engineering, and arts & culture. www.myskills.gov.au

State	Tertiary Admission Centre	Website
Victoria	Victoria Tertiary Admissions Centre (VTAC)	www.vtac.edu.au
New South Wales & Canberra	Universities Admissions Centre (UAC)	www.uac.edu.au
Tasmania	University of Tasmania	www.utas.edu.au
South Australia & Northern Territory	South Australia Tertiary Admissions Centre (SATAC)	www.satac.edu.au
Queensland	Queensland Tertiary Admissions Centre (QTAC)	www.qtac.edu.au
Western Australia	Tertiary Institutions Service Centre (TISC)	www.tisc.edu.au

High achiever scholarship programs (Year 12)

University of Technology Sydney

The University of Technology Sydney co-op scholarship program is now open for the Bachelor of Accounting and Bachelor of Information Technology for the 2023 intake. For information and to apply, go to www.scholarships.unsw.edu.au

UNSW

The UNSW Co-op Scholarship program is now open for high achieving students who plan to study in 2023 at the University of New South Wales. The scholarships are worth almost \$20,000 per year, www.coop.unsw.edu.au

You can watch videos showcasing Co-op Scholarship alumni via <https://bit.ly/3fbrjnA>

Regional University Centres

Regional University Centres help students in regional and remote areas access higher education without having to leave their community. Regional Centres in Victoria are located at Bairnsdale, Wonthaggi, Wangaratta, Corryong and Mansfield. For information, visit <https://careernews.click/unicentres>

Parent Information Session
