**WESTERN BULLDOGS INDIGENOUS
LEADERSHIP WORKSHOP** - pages 8 - 9

IN MY WORDS
- pages 4 - 5

CAREERS
- pages 11 - 16

From the Principal's Office

Dear Parents, Carers, Friends and Students of Marian College,

❖ *We encourage excellence and perseverance in learning,*

❖ *We strive for continuous improvement*

As we head to the term break this Friday, I am reminded of the school year rapidly moving on. The weeks have flown since my return from leave, full of some wonderful experiences and new opportunities to celebrate. Well done to the many students who have demonstrated high engagement and effort throughout the term in all areas of the curriculum. This week we start the new Semester 2 timetable for the Junior school. New beginnings are opportunities to challenge yourself and set realistic goals for the next stage. Every student has an opportunity to be the best version of themselves. Holidays are a time to refresh and renew, and to emerge with a new energy and plan for the challenges and joys of the term ahead.

Father, I thank You for being with me throughout every season of my life, whether they are endings or beginnings. I thank You for Your word, which reminds me that there is a time for every purpose under heaven. I praise You for what You have ended in my life because I know You have a plan for something new and wonderful. I rejoice in Your plan, and submit to Your will. In Jesus' name I pray, Amen. Ecclesiastes 3:1

Plans for our new STEM / RESOURCE Centre are coming along well with the design to go to tender around October. This will be an exciting new stage for

the College as we create a new flexible learning centre to support greater differentiation to meet the needs of students at all levels.

Professional Learning

A wonderful opportunity has arisen for our English staff to participate in professional learning in Semester 2. Catholic Education Ballarat has partnered with renowned literacy and school improvement consultant [Kirstin Bourne](#) to deliver a Pilot Program for 7-10 English teachers, focused on creating an engaging and effective English curriculum.

This Project will align with our whole school priorities for improved literacy across the school, and supports our commitment to best practice. The benefits of the accompanying resources and tapping into expert knowledge and collegial networks are many.

Our engagement in the Improving Literacy in the Secondary Years (ILSY) project will continue concurrently and complement our whole-school improvement priority for improving literacy levels across the College.

Wellbeing and Engagement

Over the last six months or so, most schools report an increase in wellbeing matters that appears to be related to the disruptions evidenced during the

COVID period. Often these wellbeing matters to emerge post pandemic are closely linked to increase in challenging behaviours, bullying and disengagement. I know as a College we are most successful in addressing any challenges as they arise when we partner with parents in a concerted effort to address matters, whether online or face-to-face.

Our wellbeing classes work alongside our Teacher Advisor program to support all students. But like most schools, we know there is more to do to ensure no student 'falls between the cracks' or disrupts others as they navigate adjustments post pandemic. Most significantly, it is formally inducting students into our Marian culture and the values that are so important to who we are and what we stand for. As the next stage in this journey, our Wellbeing team and leadership will work closely with a highly experienced Behavioural Management consultant to undertake an intensive training program to best support students as they navigate the teenage years. This important opportunity aligns beautifully with our strong values at the college, our wrap-around care and focus on positive relationships and wellbeing. Over time, the skills and resources will be embedded within a number of subject areas including Wellbeing.

Reading

As part of the ILSY (Improving Literacy in the Secondary Years) program, the focus for 2023 is Reading. 2022 was Oracy and 2024 will be Writing. Staff meet each fortnight to continue the project and implement and assess strategies within their teaching areas to support student improvement. Why is this so important? We know that:

1. Language is foundational to all learning experiences (Vygotsky, 1962).

2. Literacy is complex - continuously evolving
3. Students need to be taught disciplinary literacy
4. Literacy needs to be explicitly taught and scaffolded
5. All language modes (listening, speaking, reading, viewing and writing) are interrelated. Improving the students' ability in one language mode, improves their ability in the other modes.
6. The development of a shared language for talking about literacy empowers student learning

The results we are seeing in literacy improvement are encouraging. Regular reading at home even for a short period can enhance this journey. The holidays are a great time to choose a book to explore something new and exciting.

Well done to the senior students who sat the General Achievement Test (GAT) this week. This is the first external assessment in the lead up to the VCE/VM final exams in Term 4.

House Day

This Friday students and staff from all four houses (Barron, Clancy, Kelly and Synnott) will be participating in a day of activities to celebrate the end of a great term. This is always a brilliant day together to build community and positive relationships. Students will finish at 2.15 pm.

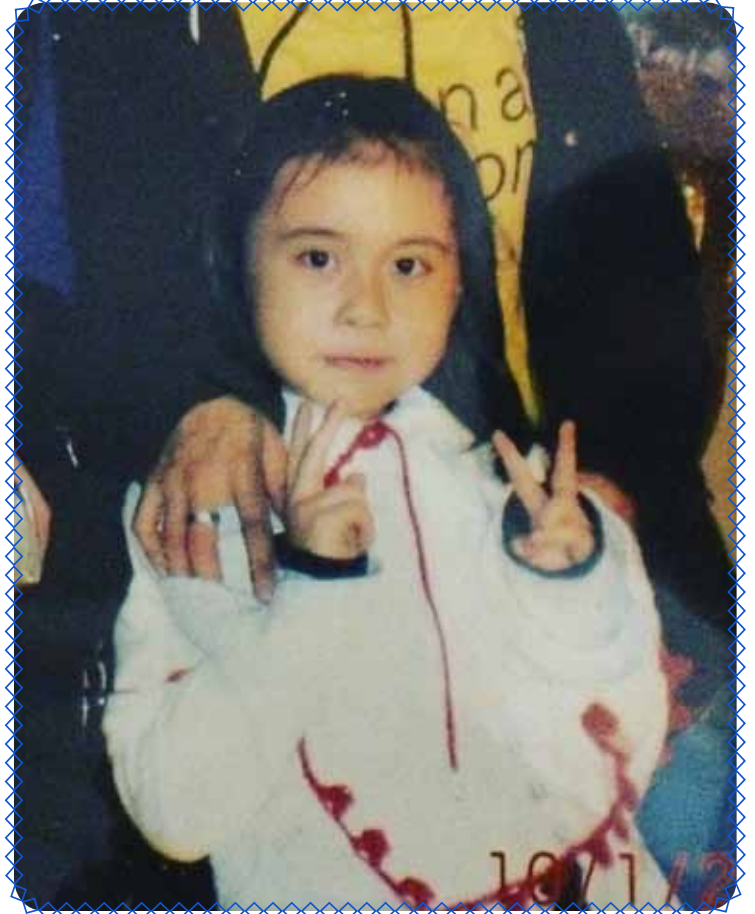

I wish everyone a safe and happy holiday and look forward to seeing you in the new term.

Carmel

IN MY WORDS *with Cathy Kwong*

My life begins when I was born on the 11th of September 2004 on a Saturday, at eight o'clock in the morning at the Queen Elizabeth Hospital in Hong Kong. Before moving to Ararat, I spent around 15 years growing up in Hong Kong, surrounded by tall buildings, loads of people and bright city lights. I started my school journey in 2010 at Wong Wing Shu Primary School. One of my favourite things I liked to do there was swim. At my old school there was a swimming pool so we would always have swimming lessons in PE class. One of the funniest memory I have was before my first swimming lesson, mum bought me a wetsuit. It felt quite comfy and warm before I walked into the pool. As you

know, wetsuits become heavy once wet, so when I jumped into the water, my wetsuit started getting very heavy and my body sank even though I had a kickboard.

I learnt a lot of things as a youngster, including the violin, recorder, dancing, and piano. Unfortunately, I only play the piano now since I was too busy with schoolwork but I'll never forget all the opportunities that were given to me there.

Then, in 2016, I went to Queen Maud Secondary School for nearly two years before transferring to Marian College. Marian College is the first school in Australia I attended. I was very nervous and shy carrying around my little Piglet pencil case, however, Marian has been very welcoming with an endless amount of support, fun activities and amazing people in my grade.

Thank you so much to everyone who has helped me make some of my most fondest memories over these last few years. Next year I hope to go to university to study Civil Engineering. Good luck to everybody, I wish you can make all of your dreams come true.

Thank you :-D

FROM YOUR HOUSE LEADER

It is the final week of Term 2. Term 3 subjects commenced today. We have four days of classes and then House Day on Friday (early finish on Friday).

Barron students and staff are going to watch a film and have a pizza lunch to celebrate the end of the term. Clancy is watching a film in the gym, doing activities around the school, and sharing pizza. Kelly is going to Alexandra Oval, playing netball and footy in the morning, then eating lunch and having a disco in the clubrooms. Synnott is going to Halls Gap, with students splitting based on year level and going to mini golf and the zoo.

Students reports will be available on Thursday. Year 10 students are at their work experience placements this week.

The winter weather is here, but at this point in the term, I'm out of words, so I'll defer to Shakespeare...

Blow Blow Thou Winter Wind **William Shakespeare**

*Blow, blow, thou winter wind,
Thou art not so unkind
As man's ingratitude;
Thy tooth is not so keen,
Because thou art not seen,
Although thy breath be rude.
Heigh-ho! sing, heigh-ho! unto the green holly:
Most friendship is feigning, most loving mere folly:
Then, heigh-ho, the holly!
This life is most jolly.
Freeze, freeze, thou bitter sky,
That dost not bite so nigh
As benefits forgot:
Though thou the waters warp,
Thy sting is not so sharp
As friend remembered not.
Heigh-ho! sing, heigh-ho! unto the green holly...*

Appears in As You Like It, Act II Scene VII.

Have a safe and relaxing break!

Erica McConachy
Barron House Leader

END OF SEMESTER REPORTS ONLINE

The end of Semester Reports will be available online from 12.00 noon on Thursday 22nd June, 2023.

Please access student reports through the PARENT ACCESS MODULE (PAM) on the school website at <http://mcararat.catholic.edu.au> using your current login and password.

WESTERN BULLDOGS INDIGENOUS LEADERSHIP WORKSHOP

On the 8th of June a number of Marian College's Indigenous Students travelled to Stawell to attend the Nallei Jerring Leadership workshop facilitated by the Western Bulldogs. Nallei Jerring means join and unite and this was a strong theme throughout the day.

The day began with a football clinic where the students worked on their reactions, agility, hand passing and kicking skills.

Once back inside, the workshop covered a range of topics including: challenges and inspirations, the importance of country and culture and the legacy of aboriginal leaders in the sporting field and beyond.

The students interacted well with the presenters as well as with the students from Stawell Secondary College. They asked important questions and the presenters always responded in a supportive manner but without sugar coating the challenges that indigenous people face today.

Stephen East

WESTERN BULLDOGS INDIGENOUS LEADERSHIP WORKSHOP

Marian College Ararat

A Kildare Ministries school in the Brigidine Tradition

Applications are invited from suitably experienced persons for
the position of

Learning Support Officer

Commencing August, 2023

The successful applicant will have an understanding of
Catholic education and the safety and wellbeing of children.

Application information including position description is
available on the Marian College Ararat website.

Applications close at 4.00pm on
Friday 21st July, 2023

Email to the Principal - principal@mcararat.catholic.edu.au

The Principal
Marian College,
P O BOX 314, ARARAT, 3377

CAREER NEWSLETTER

NEWS, RESOURCES, EVENTS

Monday 19 June 2023

YEAR 12 STUDENTS

EMPLOYMENT REMINDERS

Australian Border Force

Year 12 graduates have an incredible opportunity to apply for the Border Force Officer Recruit Training (BFORT) program. This 12-month program prepares you for a role in the Australian Border Force. Bookmark this webpage to check for upcoming application dates, <https://bit.ly/3lZTISX>

PwC Higher Apprenticeship program:

If you don't want to go university but want to receive professional training to set you up in the technology industry, join our Higher Apprenticeship Program. Applications open soon, <https://careernews.click/techtraineeship>

Department of Home Affairs

Spend an exciting 12 months, where you'll not only get paid to carry out meaningful and important work that improves the lives of all Australians but also gain life-changing skills. Successful applicants will be offered a 12-month contract at the Australian Public Service. Full time salary at commencement will be \$54,439 per annum plus 15.4% superannuation contribution. Applications close Sunday 2 July, www.homeaffairs.gov.au/

Digital Traineeship Program

Year 12 students can apply for the Australian Public Service Digital Traineeship Program. Applications are now open for the 2024 intake, <https://bit.ly/3MUmtgv>

Ag Career Start

This is gap year program on a farm. You will live in a regional location, earn a salary, achieve a nationally recognised qualification, and build life-long industry connections. Applications are now open for the 2024 intake, <https://agcareerstart.com.au/>

EARLY ENTRY PROGRAMS

Early entry programs enable universities to make course offers to Year 12 students based on factors other than just the ATAR. You can apply for as many early entry programs as you like. Early entry applications are open for the following universities:

VICTORIA

Swinburne University
RMIT University
La Trobe University
Federation University
Victoria University
CQUniversity
SAE Creative Media Institute

NSW

University of Wollongong
University of Technology Sydney
University of New England
Charles Sturt University
Southern Cross University
CQUniversity
SAE Creative Media Institute
Torrens University

Download early entry guides via
<https://slmcareerresources.edublogs.org/>

REMINDER - HIGH ACHIEVER SCHOLARSHIP PROGRAMS

University of Technology Sydney

The University of Technology Sydney co-op scholarship program is now open for the Women in IT and Engineering, Bachelor of Accounting, and Bachelor of Information Technology for the 2024 intake. For information on the programs and to apply, go to www.uts.edu.au/study/scholarships

University of NSW (UNSW)

The UNSW Co-op Scholarship program is now open for high achieving students who plan to study in 2024 at the University of NSW. The scholarships are worth almost \$20,000 per year, www.coop.unsw.edu.au

YEAR 11 & 12 STUDENTS

BUSINESS EXPLORER PROGRAM

Monash University is running a free business explorer program for students who are keen to explore course and career options in business. The next event will run in September at the Clayton campus. You will choose to participate in 3 hands-on sessions from the following course areas:

- Accounting
- Banking and finance
- Analytics, stats, and actuarial studies
- Economics
- Management
- Marketing
- Entrepreneurship

You can register your interest in attending the September event via
www.monash.edu/business/business-explorer

MELBOURNE UNIVERSITY

Year 11 and 12 students are invited to experience a taste of university life by joining us at our Parkville campus for A Day at Melbourne on 28 June. Throughout the day you'll have the chance to take part in two areas of study workshops of your choosing, sit in on a panel of current students to hear about their experiences, speak to staff one-on-one about your study interests, discover our broad range of student clubs and societies, and participate in student accommodation tours.

Places are strictly limited and will fill quickly—please register via <https://bit.ly/45NRKcz>

YEAR 11 STUDENTS

2024 NATIONAL YOUTH SCIENCE FORUM (NYSF) – FINAL REMINDER

The NYSF is a two-week on-site and digital program where students are immersed in hands-on science activities, lab experiments, field trips and meet researchers who are leaders in their field. The program will be held during January 2024. Applications close Friday 1 July. For more information and to apply, go to www.nysf.edu.au

AUSTRALIAN DEFENCE FORCE ACADEMY (ADFA)

Students who would like to combine university study with a military lifestyle and career should consider applying for the Australian Defence Force Academy (ADFA), Canberra. Students will receive a fully subsidised university degree from UNSW, a wage, and military training in the role you apply for.

Undergraduate degrees include:

- Arts
- Business
- Engineering – Aeronautical, Civil, Electrical, and Mechanical
- Aviation
- Computing and Cyber Security
- Science

Year 11 students planning to apply for ADFA for the 2025 intake are encouraged to book the YOU session as soon as possible. Applicants who don't 'unlock' their dream roles will have to wait for 12-months before they can reapply. Read through the 'how to apply' section on the ADFA website and record key dates and tasks. It's highly recommended to contact your local Defence Force Recruiting office to discuss the application process.

Civilians can also study at ADFA, Canberra. For information and to start your application, visit www.unsw.adfa.edu.au

YEAR 10 & 11 STUDENTS

DEFYING THE DRIFT PROGRAM

This is an amazing two stage program for young people keen to learn about careers in agriculture. You will participate in a 3-day residential program at Longerenong College in September and then present to a Rotary Club about your experience in the program. A fee of \$350 per participant is payable, reduced to \$250 if paid by July 31st. Sponsor Rotary Clubs assist by contributing part or all of the fee. For information and to apply, visit www.defyingthedrift.org

YEAR 9 & 10 STUDENTS

THE SANTOS SCIENCE EXPERIENCE

The Santos Science Experience is a fun program of science activities. Each program is designed to provide students who have an interest in science with an opportunity to engage in a wide range of fascinating science activities under the guidance of scientists who love their work. The next Victorian program will be held at Swinburne University on 10 – 11 August. There are 9 places left. Book your place via www.scienceexperience.com.au

ALL STUDENTS

GLOBAL SPORTS PROGRAMS, UNIVERSITY OF WOLLONGONG

The University of Wollongong invites Year 9 – 12 students who are passionate about football (soccer) or rugby to participate in one of the following three-day elite training programs during the term break:

The UOW Tottenham Hotspur Elite Football Camp.
UoW Crusaders International Academy Rugby Camp.

The programs will be held in Sydney and registrations close 30 June. Training will be provided by fully qualified coaches from the English Premier League (EPL) club Tottenham Hotspur and the UoW Crusaders International Academy rugby coaches. For information and to apply, visit www.uow.edu.au/global-sport-programs

APPRENTICESHIPS/TRAINEESHIPS

Apprenticeships and traineeships are excellent post school options. They are the perfect option for students who enjoy hands-on learning, would like to gain amazing skills, and would like to have a qualification that is recognised anywhere in Australia.

Gap year traineeships are excellent for graduates who would like to gain industry skills and a qualification before starting university study and also for grads who aren't sure what pathway they would like to take in the future.

It's a great idea to get as much work experience as possible to increase your competitiveness for employment, work out the best industry for you, and to create networks and contacts. See your work experience coordinator for information.

Australian Apprenticeship Pathways have developed an excellent four-step guide to assist you to start planning - www.aapathways.com.au

Read through Step One and take the work type explorer quiz, download the AusAppPathways app to your phone, and complete practice aptitude quizzes to ascertain the level of literacy and numeracy skills you will need for different occupations.

Bookmark websites for industries you are interested in to keep up to date with changes to industry technology, skills shortages, and events. For example:

OPEN DAYS

Open Days are almost here! If you are considering studying at TAFE or university after school, it is crucial that you attend Open Days.

Not sure if you will attend? Read stories about three students who had their lives changed by attending one - <https://tinyurl.com/3c4e532u>

For a list of open day dates for Victoria, New South Wales, and Canberra, visit <https://slmcareerresources.edublogs.org/>

LAW COURSES - VICTORIA

Keen to study law in the future? Download a course guide for Victorian universities via <https://slmcareerresources.edublogs.org/>

CAREERS IN ECONOMICS

Economics is the study of how people, companies, and communities make decisions about using their limited resources to fulfill their unlimited desires. It explores topics like production, consumption, and distribution, looking at how markets work and how we can make our economic systems more efficient. It helps us understand how money and resources affect our daily lives.

Why study economics?

Careers with STEM hit up a team from the country's biggest employer of economists – The Reserve Bank of Australia – and asked them how they landed their roles, what they studied at high school and why their current gigs are so awesome - <https://bit.ly/2AlhDqj>

What careers are there in economics?

Some careers in economics include economists, financial analysts, market researchers, policy analysts, investment bankers, data analysts, management consultants, and economic researchers for government agencies, think tanks, and private companies. Careers with STEM and The Reserve Bank of Australia have developed a free careers e-magazine just for you! <https://careerswithstem.com.au/read-it-here>

STUDY SECURITY STUDIES AT UNIVERSITY

Are you interested in humanities, politics, foreign affairs, and law? Have you considered studying security studies? The following are examples of courses you can study:

Australia National University, Canberra

Bachelor of International Security Studies.

You can combine this degree with a second degree in a study area such as: Asian Studies, European Studies, International Relations, Political Science, Laws (Honours), and Criminology. You can complete a Diploma of Languages concurrently with the degree, <http://bit.ly/2mVTXgg>

RMIT University

Bachelor of International Studies (Global Security)

Students will complete an internship with an international-security related organization in Australia or overseas, <https://tinyurl.com/3adxfgf2>

Monash University, Clayton

Master of International Relations (specialising in Political Violence and Counter Terrorism).

You will need to complete a bachelor's degree first. Ideal courses are Criminal Justice, Law, International Relations, International Studies etc., <https://tinyurl.com/mwewwr3v>

HEALTH INFORMATION MANAGEMENT

Are you interested in the intersection of health, IT, and business? Consider a career in health information management! You don't have to be a healthcare provider to make a positive impact on people's health.

As a health information specialist, you'll oversee health data, protect patient privacy, and gain expertise in informatics, coding, and analytics. La Trobe University in Melbourne offers undergraduate and graduate programs in health information management, opening doors to various career opportunities, <https://tinyurl.com/3ervn6kb>

FOCUS ON AGRICULTURE

Get hands on with your future

Agriculture isn't just farming-It is focussed on "the entire food chain, managing the environment and minimising the impact of human endeavours on natural resources".

About 50% of all jobs in the agriculture industry are in capital cities. These jobs include environmental management, research, development, agribusiness, and education. Most people in agriculture work full time. There is also an ongoing demand for agricultural science graduates with economics and management training.

Experts are needed in the areas of:

- Sustainable farming practices
- Land management
- Land conservation
- Climate change practices
- Food security
- Agricultural research and policymaking.

Students can specialise in areas such as:

- Economics
- Marketing
- Animal and plant biotechnology
- Catchment management
- Climate change impacts
- Crop management and production
- Plant and soil science
- Nutrition and feed production
- Sustainable production and consumption
- Water management

Technology is advancing rapidly in agriculture and students are advised to study maths, sciences, and business at school. Students who don't want to work 'on the land' have many opportunities to work in cities and in offices.

Courses

The following are examples of agriculture schools:

VICTORIA

La Trobe University: <http://bit.ly/1FGtcPo>
University of Melbourne, <http://bit.ly/1BWdaib>
Longerenong College, <http://bit.ly/2sGcMcT>
Marcus Oldham, <http://bit.ly/1wEGiuc>

NEW SOUTH WALES

Charles Sturt University, <https://bit.ly/2Y6BkK7>

University of New England, <http://bit.ly/1KS0tZc>

TASMANIA

University of Tasmania, <https://bit.ly/2NnkovE>

Key website

Career Harvest, www.careerharvest.com.au

CYBER SECURITY PROGRAM

Cyber Academy at Deloitte

Get paid \$40,000 per year during your degree and graduate as a cyber security specialist!

The Cyber Academy is an exciting, inclusive, one-of-a-kind program co-designed by industry, education, and government to fast-track students into a career in the cyber industry and boost Australia's sovereign cyber capabilities. We've partnered with exceptional education providers to deliver a personalised, fully immersive, and supportive educational experience.

In NSW, students will co-enrol in the TAFE NSW and University of Wollongong's Cyber Security courses. In Victoria, students will study the Bachelor of Cyber Security at Swinburne University of Technology.

Cyber Academy students will have ongoing paid work with Deloitte (\$40,000 per year) or an industry or government sector partner and receive coaching, mentoring, soft skills, ethics, and leadership training, plus a pathway to secure a job on graduation.

We'll teach you all the technology skills (scripting, coding, cryptography, cloud, programming, security architecture) and life skills (communication, teamwork, integrity, problem-solving, planning and organisation, presenting, and networking).

For information and to express your interest, visit <https://tinyurl.com/mr228mxa>

CAREERS WITH STEM

The team at Careers with STEM have written several inspiring articles on careers in the Defence Force.

Defence apprenticeships

If you love getting hands-on experience and using STEM skills to be creative, solve problems and contribute to vital projects, a Defence apprenticeship could be the right path for you! Earn nationally recognised qualifications, work to support Australia's national security and develop skills that will set you up for life, <https://tinyurl.com/yc4b6mht>

9 epic Defence careers

Defence includes a huge range of jobs in the Australian Public Service, as well as in the Australian Defence Force, made up of Navy, Army and Air Force. You'll get to work on really important projects and learn a lot of new things, plus build teamwork, leadership and problem-solving skills that will be useful in any job you do, <https://tinyurl.com/5bb735br>

Free e-magazine

The Careers with STEM: Defence e-mag is filled with real-world career profiles bound to inspire, as well as practical tips and advice from Defence personnel in a range of exciting fields. In this special edition, we explore Defence + STEM + 'X' - where X is your area of interest - whether that's space, maritime, quantum, cyber security, food & agriculture, apprenticeships, or robotics & AI. Download it via <https://tinyurl.com/muz7hu56>

UNSW BRAGG STUDENT PRIZE FOR SCIENCE WRITING

This exciting competition is for students in Years 7 – 10. The UNSW Bragg Student Prize is a science writing prize designed to complement and enrich your Science and English study. All you need to do is write a short essay on 'AI in STEM', and you could win a fantastic set of prizes, including publication in Australia's top science websites. Entries close on 25 August 2023, <https://tinyurl.com/4k94kzxd>

NATURAL HEALTH COURSES

Have you considered natural health? The following two colleges are located in the Melbourne area:

Endeavour College of Natural Health

Courses: Acupuncture Therapies, Massage, Naturopathy, Nutritional and Dietetic Medicine, Chinese Medicine, and Complementary Medicine. For information on courses, events, information webinars and to read career profiles of graduates, visit www.endeavour.edu.au

Southern School of Natural Therapies

Courses: Health Science, Clinical Nutrition, Chinese Medicine, Western Herbal Medicine, and Naturopathy. The School is part of Torrens University and Think Education, www.ssnt.edu.au

UPCOMING CAREER EVENTS

One of the best ways to develop ideas for occupations and courses is to participate in career events. The following events are running soon.

AUSTRALIAN CATHOLIC UNIVERSITY (ACU)

Discover ACU: ACU is hosting on campus interactive days for prospective students. You will be able to participate in interactive sessions tailored to your interests and speak to course advisers. The following events are running in July at the Melbourne campus:

27	Discover Nursing, Midwifery, and Paramedicine
28	Discover Allied Health, Biomedical, and Exercise Science courses.
29	Discover Law and Criminology

Information, www.acu.edu.au/discover-acu

CAMP SEEK

Camp Seek is a 4-day STEM focussed learning and immersion program for girls and non-binary young people aged 14 – 16. The camp is taking place during the September school holidays. Information - www.seek.com.au/camp-seek/

PHOTOGRAPHY WORKSHOPS

Photography Studies College is located in Melbourne. The College offers vocational and higher education courses in photography. The College is running photography workshops for Year 11 and 12 students on 28 and 29 June. For information and to register, visit www.psc.edu.au

FEDERATION UNIVERSITY

The University is running a VCE Visual Arts Folio Workshop on Wednesday 5 July at the Camp Street campus, Ballarat. Register via <https://events.federation.edu.au/>

ACADEMY OF INTERACTIVE ENTERTAINMENT (AIE)

AIE is a creative media institute with campuses in Melbourne, Canberra, Sydney, and Adelaide that offers courses in game art, game design, game programming, 3D animation and VFX, and filmmaking. The Academy is running an industry experience day for students in Years 10 - 12 on Wednesday 5 July at the Melbourne campus. For information and to register your place, visit https://aie.edu.au/aie_event/

AUSTRALIAN DEFENCE FORCE

You can find out about careers in the Australian Defence Force through participating in free information sessions. There are sessions running at various locations across Victoria and NSW and online sessions, www.defencejobs.gov.au/events

RMIT UNIVERSITY

RMIT University is hosting campus tours for high school students during the upcoming term break at the City, Bundoora and Brunswick campuses. The tours will run between 26 June – 5 July. Book a tour via <https://bit.ly/3MWAGbA>

LA TROBE UNIVERSITY

Bendigo campus Talk & Tours are running again from Monday 26 to Thursday 29 June! Students and their families can learn about courses of interest from expert academics, meet student ambassadors, and tour facilities and on-campus accommodation. Register now and see the full schedule via, <https://tinyurl.com/mrxzywx>

TECH AND TRADES EXPO

RMIT is hosting a free Tech and Trades Experience Day for Years 10, 11 and 12 students and their parents / guardians on 29 June at the Melbourne campus. Students can experience hands-on workshops from various fields in Future Technologies and Trades to gain practical knowledge, tour facilities, and interact with teachers, current students, and industry. Register for the event via www.rmit.edu.au/events

MELBOURNE CAREERS EXPO

This is Australia's largest careers expo. You will have the opportunity to: attend information seminars, speak directly with organisations, watch demonstrations, receive career advice, participate in hands-on activities, speak to course advisers from universities and TAFEs, speak to industry experts and learn about apprenticeships, and learn about international exchange and gap year programs. The Expo will run between Friday 14 - Sunday 16 July at the Melbourne Exhibition and Convention Centre and is free for participants, www.careerexpo.com.au

YEAR13 EXPO

The Year13 Expo enables you find a career you're genuinely passionate about from the comfort of home. All sessions have been recorded and will be available online for the next three months. There are five virtual stages packed with content where you can learn about different aspects of the future. Access the Expo via <https://year13.com.au/>

VICTORIAN CAREERS AND EMPLOYMENT EXPO

This Expo is free to all people and will be packed with exciting seminars, demonstrations, and hands-on workshops. You will be able to: speak to exhibitors from over 100 organisations, watch the WorldSkills National Championships, try different trades, participate in seminars, and learn about your post school study and training options.

The Expo will run between Thursday 17 – Saturday 19 August at the Melbourne Exhibition and Convention Centre. For information on the event and to secure tickets, visit www.careeremploymentexpo.com.au

MONASH UNIVERSITY

Discover Events

These events are for prospective students and their families and will be held on campus. The following two events will take place in July, www.monash.edu/discover/events

3	Discover Commerce
12	Discover Information Technology

Campus Tours

These events are for prospective students and their families and will be held in July. They are a great opportunity to tour campuses, speak to course advisers, and meet current students, www.monash.edu/discover/events

3	Clayton campus
4	Peninsula
4	Caulfield

Access Monash

The following events will be held online in July, <https://bit.ly/3kVijtH>

26	Engineering student panel
27	Regional Student Experience – making friends and connections.

Art, Design, Architecture

Monash is running the following Experience Days in June for Year 10 – 12 students interested in Art, Design and Architecture:

- 27: How to build your fine art folio at Monash
- 28: Design and architecture studio workshops

The events will take place at the Caulfield campus and participants will have the opportunity to be a student for a day and learn about fine art mediums and design thinking approaches. Places will fill quickly, book your place via <https://bit.ly/3OZMQTH>

MUSIC CAREERS EXPO

The Push is running an exciting Music Careers Expo on Tuesday 15 August at the Corner Hotel, Richmond. The Expo will be a fun and interactive way to learn about the various professions within the music industry. Register via www.thepush.com.au/mce
